

Note: we will provide the password after receiving the Enrollment form.

Please Follow this process For Windows 7 :

1st Step

1. Go to <https://www.imeltd-remit.net/certsrv>
2. Login and Click on [Request a Certificate](#)
3. Click yes and Fill up Blank option and click Submit
4. System will display a request id after submitting a form.
5. Inform display requested id by fax (4439340 or 4435341) or send email (support@imeremit.com.np) to the Support Department on IME Head Office about your request id number for approval. (Form is attached)

2nd step

6. Again you have to **click home after Head office approve your request ID** or go to <https://www.imeltd-remit.net/certsrv> or **click home after Head office approve your request ID**
7. Click on [View the Status of pending certificate.](#)
8. Then the system will display client (Date & time and requested id)
9. click CA certificate. Click open and click allow
10. click install certificate
11. click next
12. click place all certificate and click browse (select trusted rootcertification) click ok
13. click next , finish
14. click yes and ok
15. close that certificate

16. Again go to previous page and Click on [Install the Certificate](#). If any message box appears asking about confirmation on installation then always click on "Yes" option.
17. Finally system will display "**Your new certificate has been installed successfully**"
18. Close the browser (Internet Explorer) and restart it again
19. Please note your Receiving site <https://www.imeremit.com.net/agentlogin>
